Property plans from the 3D Scan & Virtual Tours.

Mixed-Reality.co.za offers some additional services as part of our 3D Scans and Virtual Tours.

One such service is our 2D Floor plans. We can draw up plans for properties that we scanned offering a complete solution for Businesses, Insurance, Builders, Architects and Assessors.

The 3D Scanner used to photograph the properties and spaces use infrared to measure the property during a scan and can be later used to get measurements from the model.

We provide still photography as part of the scan.
