ABOUT MIXED REALITY

Mix Reality PTY LTD Virtual Reality Equipment and Virtual Reality Events

At Mix Reality PTY LTD, we understand that planning an event can be stressful, especially when it comes to providing engaging and innovative activities for guests. That's why we offer a solution that not only meets our clients' needs but also solves their problems.

Our Virtual Reality Activation Team and Virtual Reality Equipment hire provide a one-stop-shop for clients, taking the load off their shoulders and ensuring that the virtual reality portion of their event goes smoothly.

We know from experience that providing virtual reality equipment for hire can lead to technical glitches and confusion, which is why our expert team is there to guide users through their virtual reality experience and ensure that everything runs seamlessly.

Our team understands the psychology behind virtual reality experiences and uses this knowledge to help users get the most out of their experience. With our services, clients don't have to worry about anything related to the virtual reality event, allowing them to focus on other aspects of their event.

We aim to provide our clients with a stress-free and unforgettable virtual reality experience for their guests, solving their event planning problems and exceeding their expectations.

Our website address is <https://mixed-reality.co.za>

**OUR VIRTUAL REALITY
ACTIVATION TEAM**

WHAT DOES OUR VIRTUAL REALITY ACTIVATION TEAM DO?

We have learned from past experiences that providing virtual reality equipment for cold hire can lead to technical glitches and confusion, which is why our team is dedicated to ensuring that clients have a seamless and enjoyable experience.

- Makes the virtual reality experience fun and entertaining for all users.

- Helps users with the virtual reality equipment and controllers.

- Monitors the crowd at the event to ensure a smooth flow and manage queues.

- Instructs users on how to get the most out of their virtual reality experience.

- Understands the psychology behind virtual reality experiences and uses this knowledge to guide users.

- Manages users' time in the virtual reality experience to ensure they have a great time.

- Contributes positively to clients' goals and objectives for their virtual reality event.

- Keeps the virtual reality equipment clean and well-maintained for optimal performance.

- Provides hands-on assistance to users during their virtual reality experience to prevent technical glitches and confusion.

- Ensures that every user has a positive and unforgettable virtual reality experience at the event.

- Our Virtual Reality activation team is there to make sure that the experience is safe for the person in the virtual reality headset. They are trained to monitor users and prevent accidents, ensuring that everyone has a positive and safe virtual reality experience. Safety is a top priority for us, and our team takes every precaution to ensure that users are protected from potential hazards.

Planning a Virtual Reality Event?

If you're planning a virtual reality event, there are a few technical considerations you should keep in mind.

Here are some of the key things you should know.

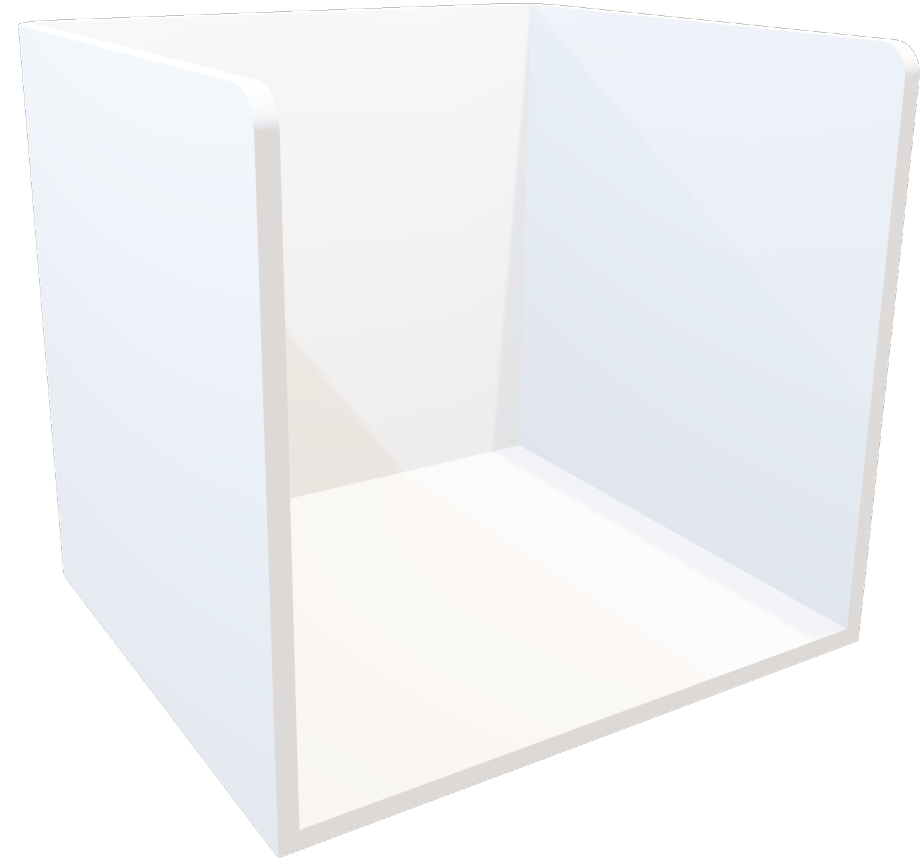

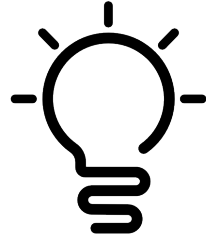

Space requirements

Depending on the virtual reality experience, you will need a certain amount of physical space to set up the equipment and allow users to move around comfortably. Make sure you have enough room to accommodate the experience you have in mind.

For an interactive virtual reality experience, users move around and physically interact with the virtual environment. This type of experience typically requires more space and can range from 2 x 2 meters up to several square meters, depending on the specific experience. It's important to consider the amount of space needed for users to move around safely, as well as the amount of space needed for the virtual reality equipment.

Our recommendation is one headset per 2m x 2m.

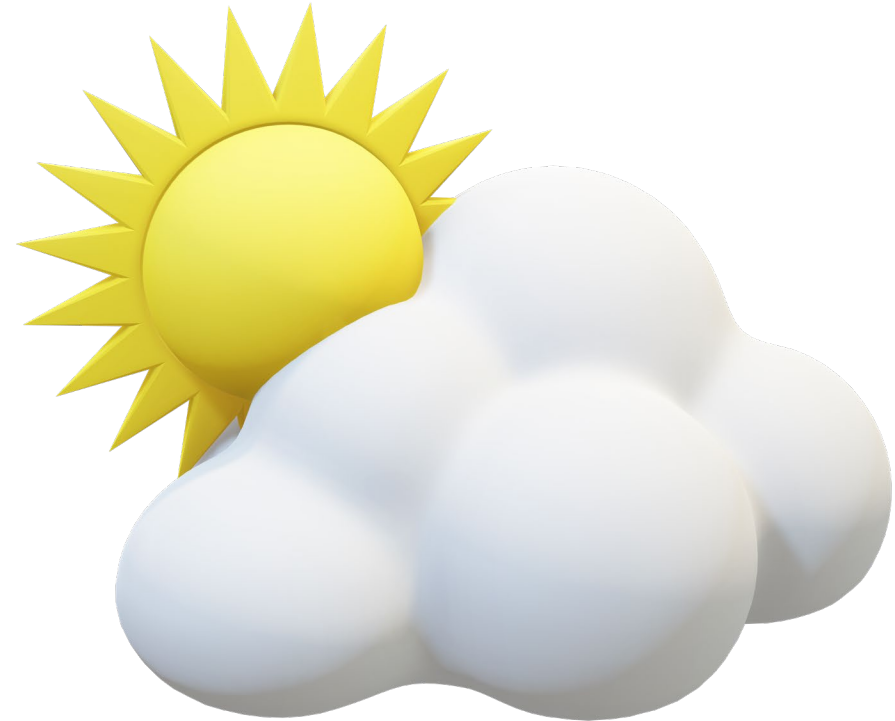

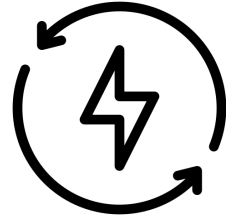

Lighting

Virtual reality experiences require a certain amount of ambient lighting to function properly. Make sure the lighting in your event space is sufficient and not too bright or too dim and that the space is not in direct sunlight.

Please note that the Virtual Reality Equipment is not suitable for use in direct sunlight. If you are planning to host your event outdoors, please let us know in advance so we can advise on the best setup for the equipment. We cannot be held responsible if the equipment does not work properly in direct sunlight.

We may be able to set up the equipment under a tent or gazebo that provides shade and UV protection. It's important to keep these technical considerations in mind when planning your virtual reality event to ensure the best experience for your guests.

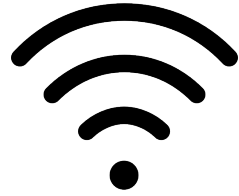

Power requirements

Virtual reality equipment requires power, so make sure you have access to power outlets.

We use stand-alone, all-in-one Oculus Quest virtual reality headsets for our virtual reality experiences. These headsets come with batteries that are included and can last for approximately four hours of continuous use before needing to be charged.

Please note that if you plan to use televisions as part of your virtual reality setup, they will need access to direct power. We will provide all the power cables for our equipment we only require a power outlet.

Internet connectivity

Some virtual reality experiences require an internet connection, so make sure you have reliable and high-speed internet access at your event space.

Wi-Fi gaming routers that use WIFI 6 technology.

These routers can provide a strong and stable internet connection, even for virtual reality experiences. We recommend using our Wi-Fi gaming routers to ensure that your event has the best possible internet connection for your guests.

We can also provide Internet and WIFI at an additional cost.

Health and Safety

Virtual reality experiences can be intense and potentially disorienting, so it's important to have trained staff on hand to monitor users and ensure their safety.

This is what our Virtual Reality Activation Team specializes in making sure the experience is safe, fun and runs smooth.

By taking these technical considerations into account, you can help ensure that your virtual reality event runs smoothly and provides a great experience for all attendees.

What Content do you want to use at your Virtual Reality Event?

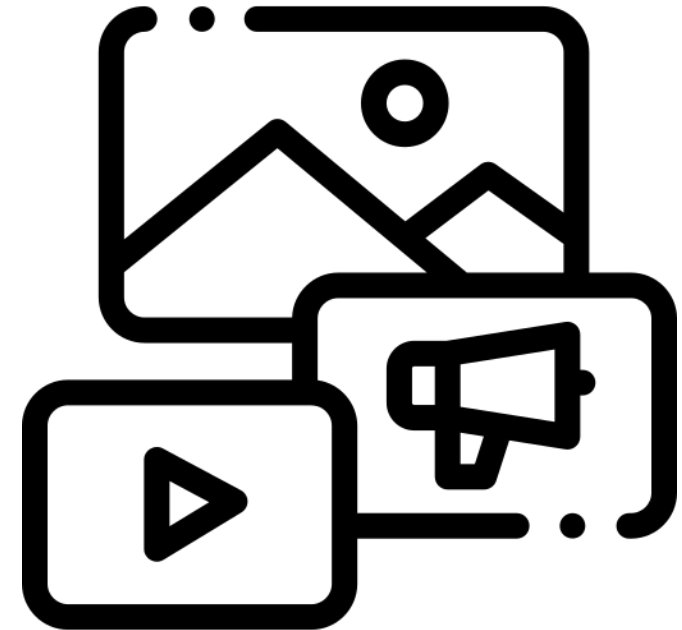

At Mix Reality PTY LTD, we offer a range of options for virtual reality content at events. We can customize virtual reality experiences to meet your specific needs and objectives, or we can provide a selection of commercial experiences that are available for use. If you have a specific concept or theme in mind for your event, our team can work with you to create custom virtual reality content that aligns with your goals and objectives.

We can provide a full range of services, including design, development, testing, and deployment of the virtual reality experience. Alternatively, we have a range of pre-existing commercial virtual reality experiences that are available for use at events.

These experiences include popular games such as Beat Saber, Fruit Ninja, and Job Simulator, as well as immersive experiences like The Trust Plank Experience and The Climb.

Ultimately, the choice of content for your virtual reality event is up to you. Our team can work with you to determine the best options for your specific event and provide guidance and support throughout the planning and execution process. With our experience and expertise in virtual reality, we aim to ensure that your event is a success and provides a memorable and enjoyable experience for your guests.

Popular Virtual Reality Commercial Ready-Made Experiences available for your event.

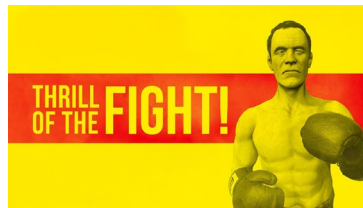

A close-up, side-profile view of an Oculus Quest VR headset. The device is white with a blue accent on the right side. The word "oculus" is printed in a small, dark font on the top left of the front face. The headset is positioned diagonally across the frame, with the top of the head strap visible at the top. The background is a soft, out-of-focus gradient of light blue and white.

VIRTUAL REALITY EXPERIENCES

Mixed-Reality .GO.ZA

Here is a list of all our Quest 2 games, read more about a game by clicking on one of the images.

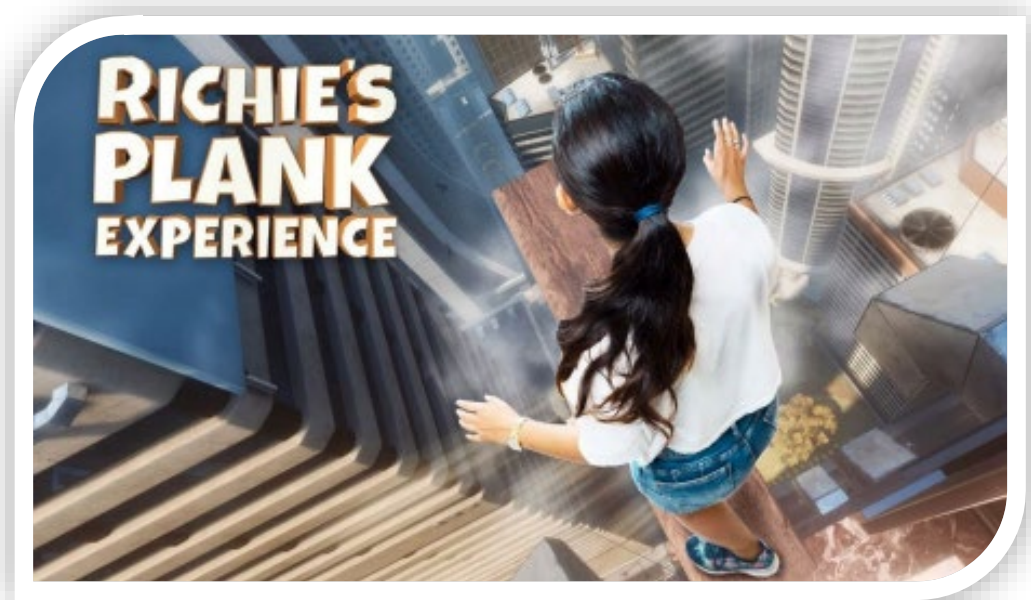

RICHIE'S PLANK EXPERIENCE

Richie's Plank Experience is one of the most popular and well-known virtual reality experiences that we offer at Mix Reality PTY LTD. The experience involves walking on a plank situated high above the ground, with realistic sound effects and visuals making it feel like you are on a skyscraper.

The experience is incredibly immersive, and many people find it difficult to distinguish the virtual world from reality. As a result, the experience can be quite challenging, especially for those who are afraid of heights. Users can struggle to gain mind over matter, as they attempt to walk along the plank and overcome their fear of heights. This creates a thrilling and exhilarating experience for users, making it a popular choice for events.

One of the reasons why Richie's Plank Experience is so popular is its spectator value. As users experience the virtual world, those around them can watch and see their reactions, which can be quite entertaining. This creates a fun and engaging experience for everyone at the event, even those who are not participating in the virtual reality experience. The Richie's Plank Experience is a popular choice for virtual reality events due to its high level of immersion and the challenge it presents to users. The experience can be exciting and thrilling, making it a memorable and enjoyable experience for users.

With its spectator value, it is a great addition to any event and is sure to entertain and engage guests.

GAMES LIST

BEAT SABER

Beat Saber is another popular virtual reality game that we offer at Mix Reality PTY LTD. The game involves using virtual lightsabres to slice through blocks that fly towards you in time with the beat of the music. The experience is incredibly immersive and provides a sense of being in a futuristic world where you are a master Jedi. The game is also quite physically engaging, as users need to move their arms and body to slice through the blocks, making it an excellent source of exercise.

When people first experience Beat Saber in virtual reality, they are often amazed by how real the virtual world feels. The combination of stunning visuals, realistic sound effects, and engaging gameplay creates a thrilling and exhilarating experience for users. In addition to being an exciting and engaging game, Beat Saber also has spectator value.

Those around the user can watch and see their reactions as they slice their way through the blocks, creating a fun and entertaining experience for all.

Beat Saber is a popular choice for virtual reality events due to its immersive gameplay and engaging experience. With its combination of stunning visuals, realistic sound effects, and physical engagement, it is a memorable and enjoyable experience for users. Its spectator value also makes it a great addition to any event, providing entertainment and engagement for all guests.

GAMES LIST

A man in a light blue striped shirt and dark trousers is wearing a VR headset and holding a controller. He is being assisted by two women in dark blue polo shirts. One woman is holding a cable connected to the headset, and the other is pointing towards the man. In the background, other people are standing and watching. The setting appears to be a modern office or event space with large glass windows.

Virtual Reality Activation for ABSA Bank EXCO members

The majority of the EXCO members present at the event attempted the virtual reality encounter, and nearly all of them exhibited a similar response when the elevator doors opened, and they gazed down at the city. The plank experience has an enchanting quality that captures people's attention nearly every time.

OCEAN RIFT

The Ocean Rift is an immersive virtual reality experience that we offer at Mix Reality PTY LTD. The experience takes users on a journey to the depths of the ocean, where they can interact with a variety of sea creatures and explore the underwater world.

When people first experience The Ocean Rift in virtual reality, they are often amazed by how realistic the underwater world feels. The stunning visuals and realistic sound effects make users feel like they are swimming in the ocean, surrounded by fish, turtles, and other marine life.

Ocean Rift is also an engaging and interactive experience. Users can touch and interact with the creatures in the virtual world, creating a sense of connection and immersion that is unique to virtual reality. The experience is calming and relaxing, making it a great choice for events where users may want to take a break from more intense virtual reality experiences.

In addition to its immersive and interactive gameplay, The Blue also has spectator value. Those around the user can watch and see their reactions as they explore the underwater world, creating a fun and entertaining experience for all. The Blue is a popular choice for virtual reality events due to its stunning visuals, engaging gameplay, and calming atmosphere. With its combination of realism and interactivity, it is a memorable and enjoyable experience for users.

Its spectator value also makes it a great addition to any event, providing entertainment and engagement for all guests.

<https://www.youtube.com/watch?v=La40eR1NQos>

TILT BRUSH

The experience allows users to create 3D artwork and designs in a virtual reality environment using the Tilt Brush tool.

When people first experience Google Tilt Brush in virtual reality, they are often amazed by the level of creativity and freedom it provides. The experience allows users to unleash their imagination and create unique 3D artwork that can be viewed and appreciated from all angles.

The Google Tilt Brush experience is highly interactive, allowing users to use their hands and controllers to paint, draw, and design in the virtual world. The experience also allows users to collaborate and share their designs with others, creating a sense of community and collaboration that is unique to virtual reality.

In addition to its immersive and interactive gameplay, Google Tilt Brush also has spectator value. Those around the user can watch and see their artwork take shape in real-time, creating a fun and entertaining experience for all.

Overall, Google Tilt Brush is a popular choice for virtual reality events due to its innovative and creative gameplay. With its combination of freedom and interactivity, it provides users with a memorable and enjoyable experience that allows them to express their creativity in a unique and exciting way.

Its spectator value also makes it a great addition to any event, providing entertainment and engagement for all guests.

Virtual Reality Wellness Day Events

In the past many of these companies hired our Virtual Reality events package to spice up their wellness days and to give their employees something fun and amazing to do while learning more about the wellness packages on offer.

FRUIT NINJA

Fruit Ninja is an engaging and competitive virtual reality game that we offer at Mix Reality PTY LTD. The game involves slicing and dicing virtual fruit as it flies through the air in a fruit filled arena, creating a fun and immersive gameplay experience.

When people first experience Fruit Ninja in virtual reality, they are often amazed by how realistic and exciting the gameplay feels. The game allows users to use their hands and controllers to slice through the fruit, creating a sense of interactivity and challenge that is unique to virtual reality.

Fruit Ninja also has a competitive element to it, allowing users to compete against each other to see who can slice the most fruit in a short period of time. This adds an extra level of excitement and engagement to the experience, as users strive to outdo their friends and family and become the ultimate Fruit Ninja.

In addition to its immersive and competitive gameplay, Fruit Ninja also has spectator value. Those around the user can watch and see their reactions as they slice through the virtual fruit and compete with others, creating a fun and entertaining experience for all.

Overall, Fruit Ninja is a fun, engaging, and competitive virtual reality game that is sure to delight users of all ages and skill levels. With its combination of realism and competition, it provides users with a memorable and enjoyable experience that they won't soon forget.

Its spectator value also makes it a great addition to any event, providing entertainment and engagement for all guests.

A man in the foreground is wearing a white VR headset and a dark green jacket over a white shirt. He has a lanyard with 'MEDIAMARK' logos around his neck. To his right, a woman in a white polo shirt with a 'Virtual-Reality' logo is looking towards him. The background shows a modern studio with tables, chairs, and a large window.

Virtual Reality at Urban Brew Studios

One exciting day filled with immersive and captivating virtual reality experiences was had at Urban Brew Studios.

Participants were able to fully immerse themselves in the virtual environments, feeling as though they were truly there. The sights, sounds, and even the sensations of the virtual world were incredibly realistic, creating a truly unforgettable experience.

KEEP TALKING AND NOBODY EXPLODES

Keep Talking and Nobody Explodes is a popular virtual reality game that we offer at Mix Reality PTY LTD. The game allows users to experience a unique and thrilling gameplay experience, as they work together to defuse a virtual bomb while communicating with their team.

When people first experience Keep Talking and Nobody Explodes in virtual reality, they are often struck by the sense of urgency and excitement that the game creates. The pressure of trying to defuse a virtual bomb while racing against the clock creates a thrilling and engaging gameplay experience.

The game is highly interactive, requiring users to communicate and work together to defuse the bomb. One user wears the virtual reality headset and sees the bomb, while their team members have a manual with instructions on how to defuse it. The players must communicate with each other and work quickly to find the correct solutions and defuse the bomb before it explodes.

In addition to its engaging gameplay, Keep Talking and Nobody Explodes also has spectator value. Those around the user can watch and see their reactions as they work to defuse the virtual bomb, creating a fun and entertaining experience for all.

Overall, Keep Talking and Nobody Explodes is a unique and exciting virtual reality game that is sure to delight users of all ages and skill levels. With its combination of communication and challenge, it provides users with a memorable and engaging experience that they won't soon forget. Its spectator value also makes it a great addition to any event, providing entertainment and engagement for all guests.

GOLF +

The game allows users to experience the thrill of playing golf in a stunningly realistic environment, creating a fun and engaging gameplay experience.

When people first experience Golf+ in virtual reality, they are often amazed by how realistic and immersive the gameplay feels. The stunning graphics and realistic sound effects make users feel like they are actually on a real golf course, with the wind blowing past their ears and the sense of depth and scale all around them.

Golf+ is highly interactive, allowing users to use their hands and controllers to swing, putt, and drive the ball on the virtual golf course. The game also provides a sense of competition and challenge, with users striving to get the lowest score and outdo their friends.

In addition to its engaging gameplay, Golf+ also has spectator value. Those around the user can watch and see their reactions as they play the virtual golf game, creating a fun and entertaining experience for all.

Overall, Golf+ is a thrilling and immersive virtual reality game that is sure to delight users of all ages and skill levels. With its combination of realism and competition, it provides users with a memorable and exciting experience that they won't soon forget. Its spectator value also makes it a great addition to any event, providing entertainment and engagement for all guests.

However, once users get the hang of the gameplay mechanics, they can enjoy a truly immersive and engaging virtual reality golf experience. The realistic graphics and sound effects, combined with the interactive gameplay, create a sense of realism and excitement that is unparalleled in traditional video game golf.

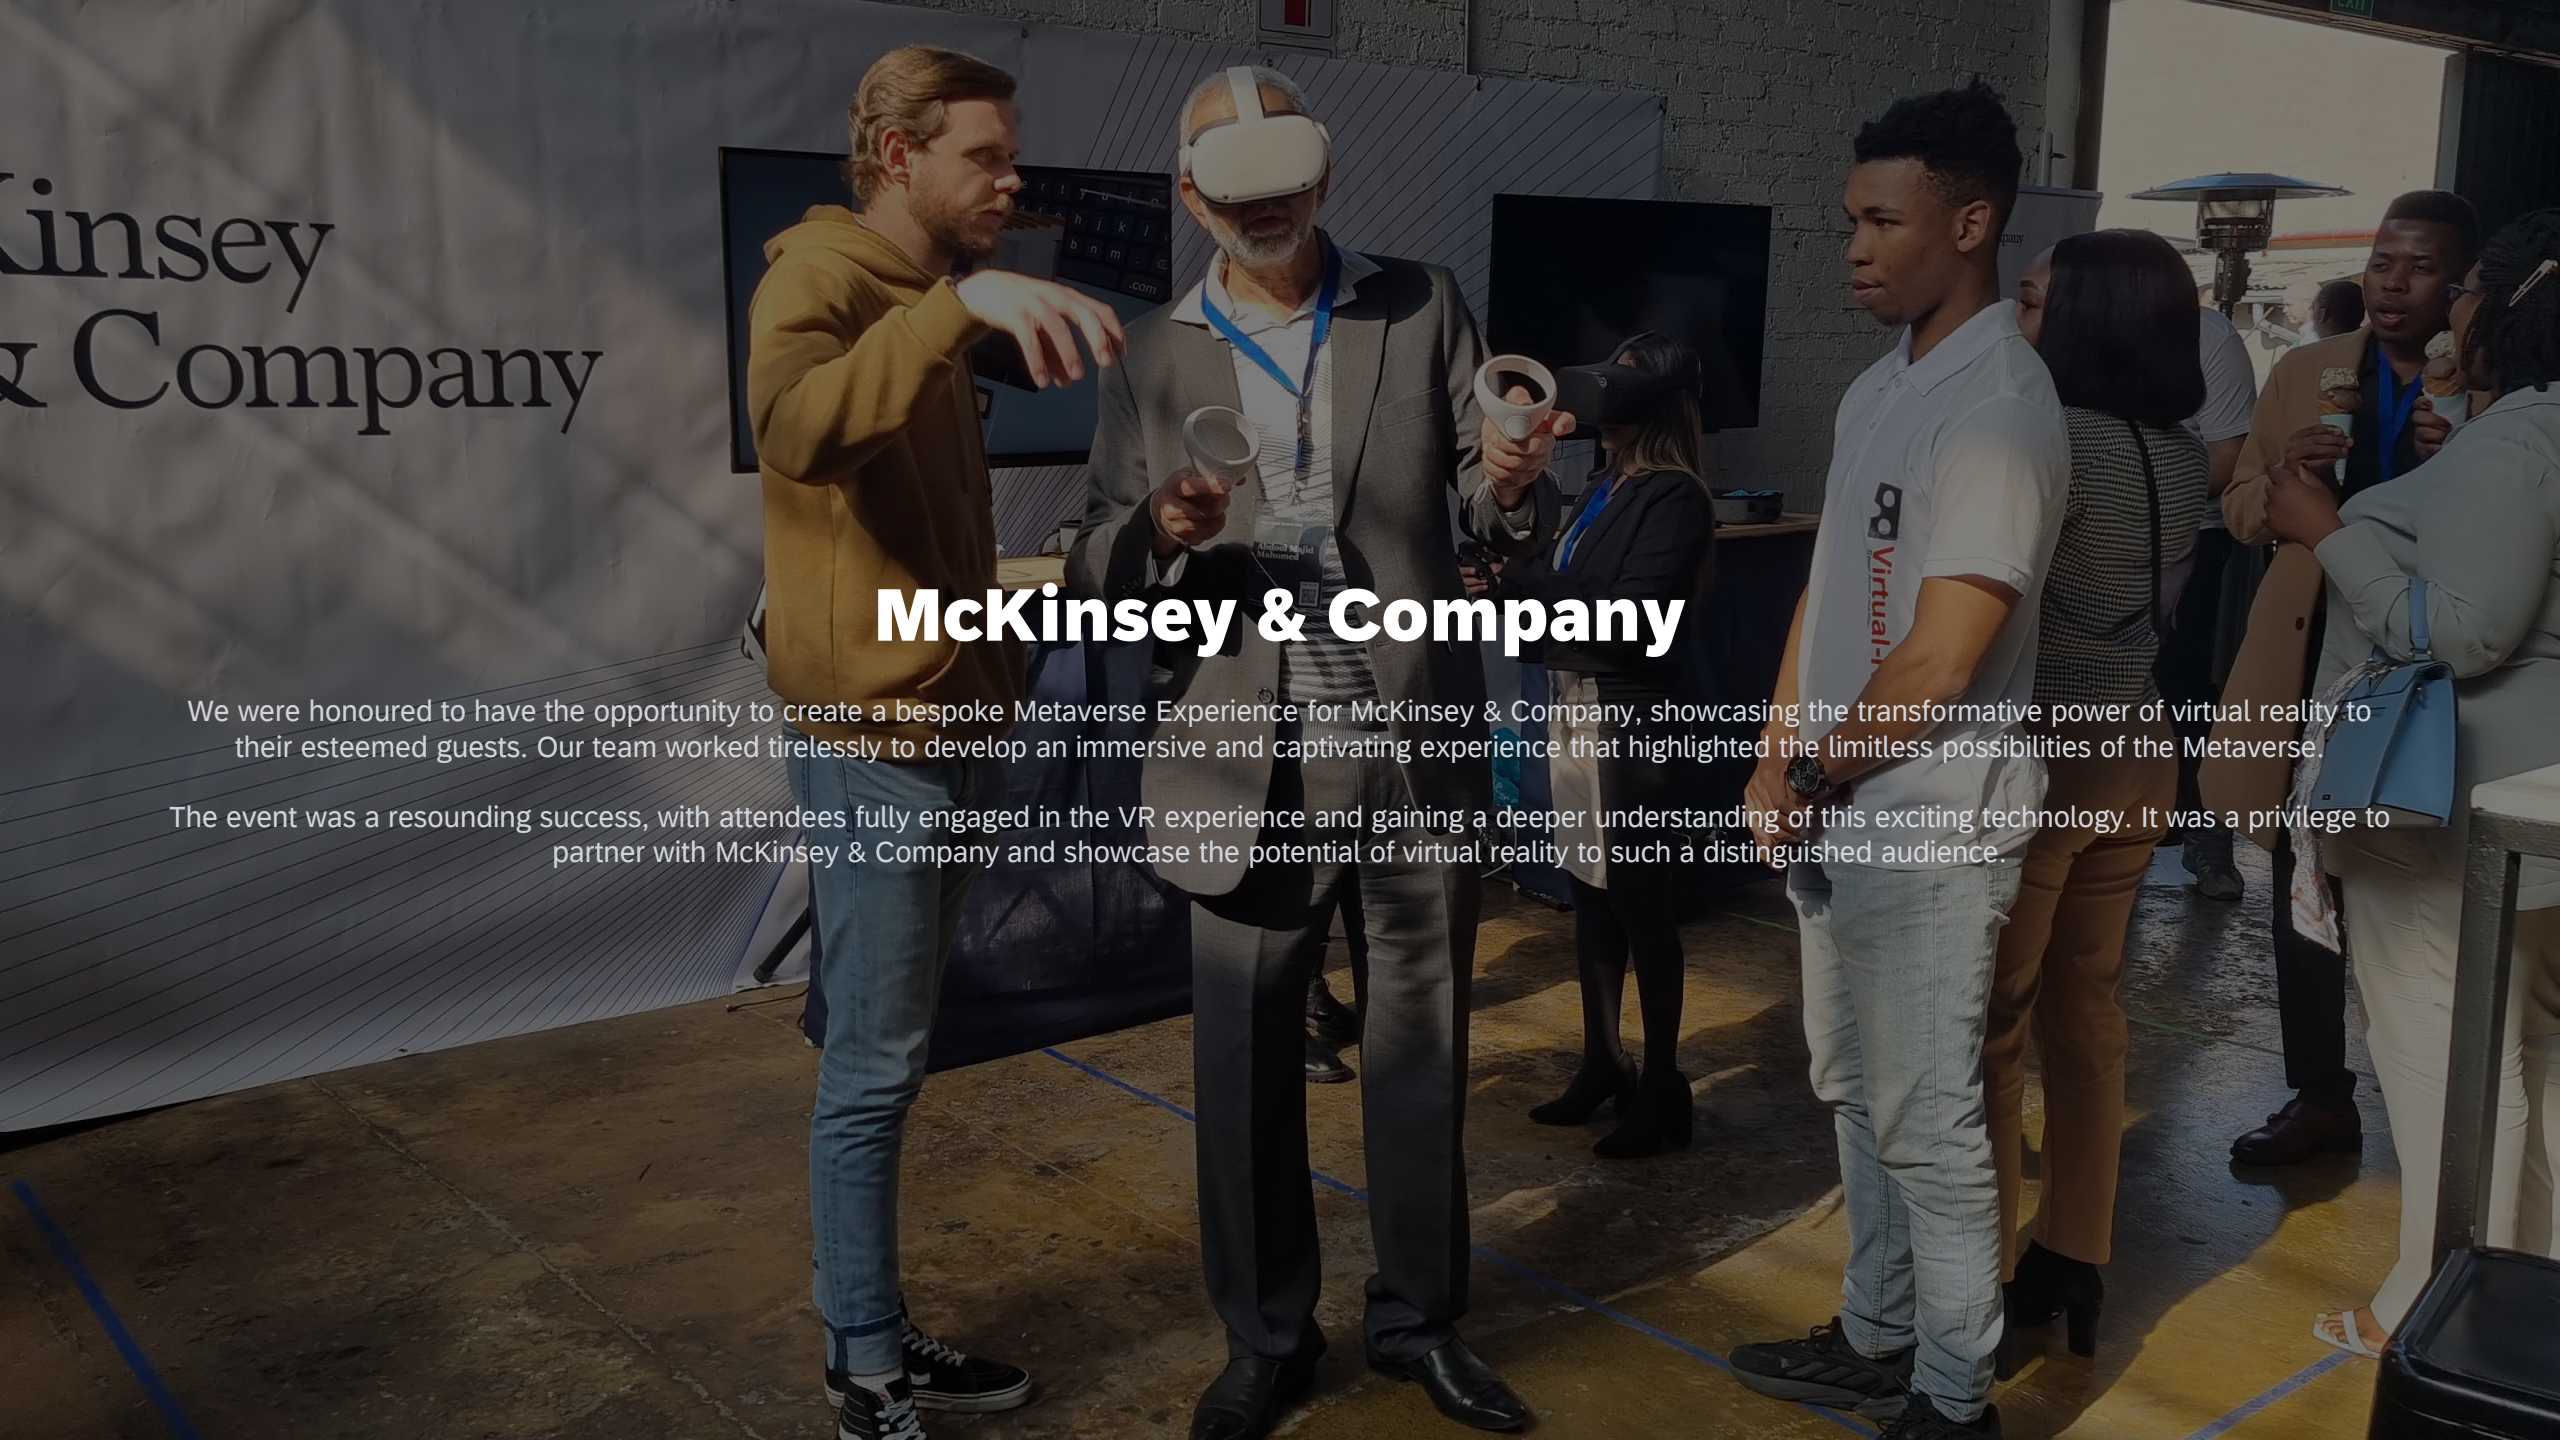

At Mix Reality PTY LTD, we understand the challenges that come with learning a new game, and our Virtual Reality Activation Team is always on hand to provide guidance and instruction to new users. Our team is trained to help users get the most out of their virtual reality experience and ensure that they have a fun and engaging time playing Golf+.

BRINK TRAVELER

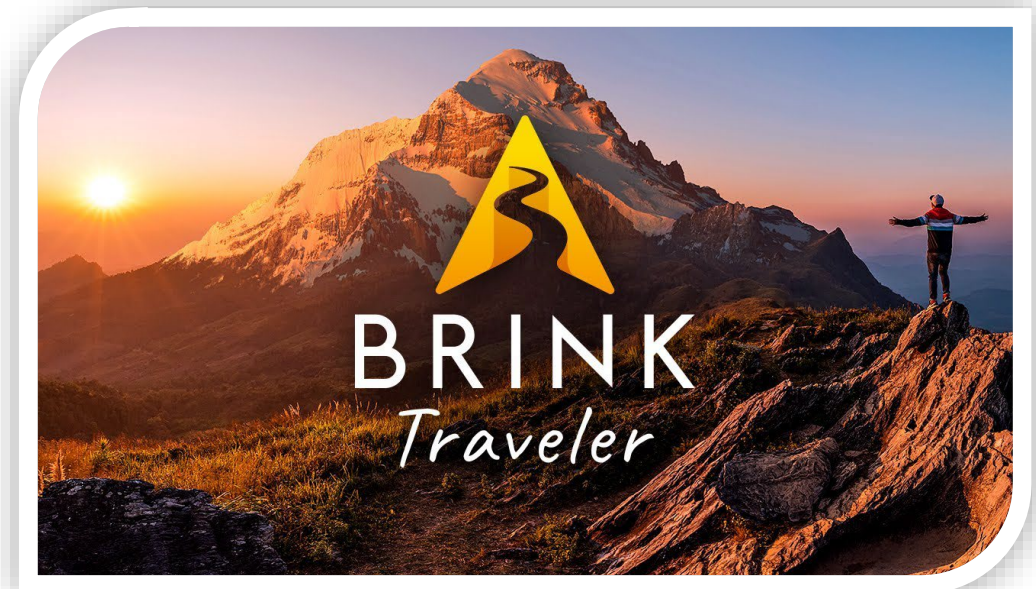

BRINK Traveler is available in both AR and VR, making it accessible to a wide range of users. In AR, users can turn their phone or tablet into a window to the world and explore a location as if they were there in person. In VR, users can put on a headset and feel like they're there, experiencing the location in a fully immersive way.

The mission of BRINK XR, the company behind BRINK Traveler, is to make the wonders of the world personally accessible to all through virtual travel experiences. They aim to give people who otherwise wouldn't have the opportunity to visit these amazing places a chance to feel like they've experienced it in person. They see virtual travel as a tool to help lower the barrier of entry for those who don't have the time, money, or health to travel freely.

In addition to entertainment, BRINK XR sees profound uses for virtual travel, including education, healthcare, and historic documentation. The company believes that virtual travel experiences can be a tool to build connection and empathy for these amazing places, and to protect and ensure them for future generations.

BRINK Traveler is a unique and innovative virtual reality experience that provides users with a memorable and immersive journey to some of the most breath-taking places on Earth.

Surf's Up - Using Innovative Props to Enhance Virtual Reality Experiences at Dezzi Raceway

Our company boasts a wide array of props, including a surfboard, which serves to enhance the immersive experience of our guests. Recently, we conducted an activation event for Dezzi Raceway in Port Shepstone, featuring a virtual surfing experience. The use of the surfboard prop added an extra level of engagement for attendees, allowing them to fully immerse themselves in the virtual environment and enhancing their overall experience.

Our commitment to utilizing innovative props and technologies is a key aspect of our company's approach to delivering unique and unforgettable experiences for our clients and their guests.

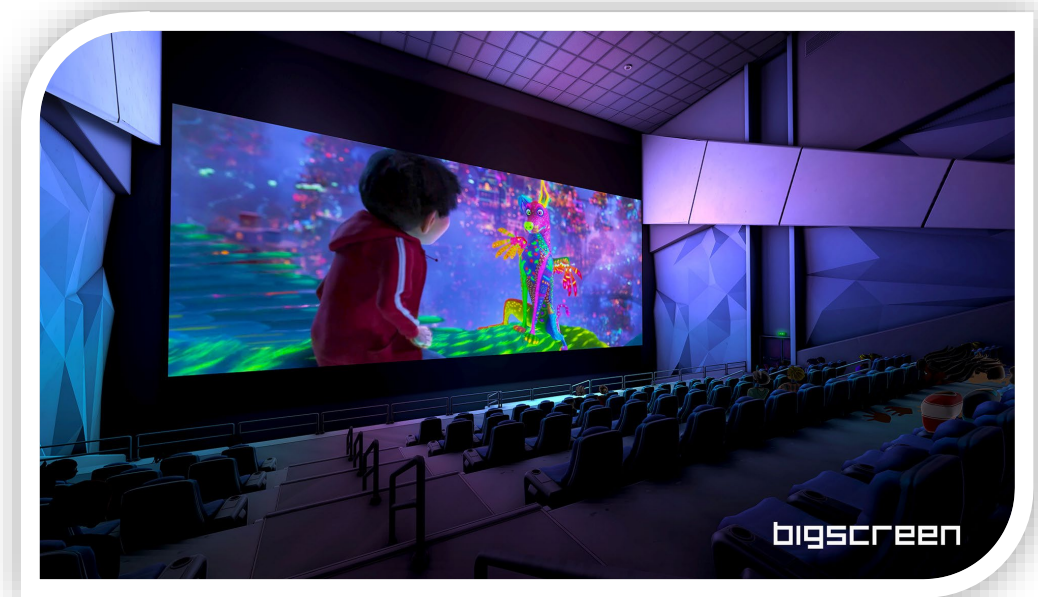

BIG SCREEN

With Bigscreen, users can create their own virtual rooms and invite friends to join them. They can watch movies, TV shows, and videos together in real-time, with synchronized playback and chat features that make it feel like they're all in the same room. Bigscreen also offers a range of other interactive features, such as the ability to draw and write on a virtual whiteboard or play games together.

One of the unique features of Bigscreen is its ability to support multiple VR headsets, including the Oculus Quest, Oculus Rift, HTC Vive, and Windows Mixed Reality headsets. This means that users can join a Bigscreen room from almost any VR headset, allowing for a wide range of users and experiences.

Bigscreen is a fun and interactive virtual reality platform that provides users with a unique way to socialize, watch content, and interact with others in a shared virtual environment. Its ability to support multiple VR headsets and its range of customizable features make it a great choice for socializing and enjoying content with friends and family in virtual reality.

Smash Drums is a virtual reality game that allows users to experience the thrill of playing drums in an immersive and interactive environment. It is designed to provide a fun and engaging experience for both novice and experienced drummers alike.

THE THRILL OF THE FIGHT

The Thrill of the Fight is a virtual reality boxing game that simulates an authentic boxing experience in the ring. This game is one of the most popular and realistic VR boxing games on the market.

One reason people love this experience is that it provides an immersive and realistic simulation of a boxing match, allowing users to experience the thrill of a boxing match without actually getting hit. The game provides an accurate representation of the movements, sounds, and adrenaline rush of a real-life boxing match. Players can experience the feeling of throwing punches, dodging punches, and delivering a knockout blow.

Another reason why people love this experience is that it challenges the player's physical and mental endurance. The game requires players to exert a lot of physical energy to throw punches and move around the ring, providing a great workout. Additionally, the game requires mental focus and strategy, as players must anticipate and react to their opponent's moves.

The game is also very popular with spectators, as it can be very entertaining to watch someone play. As players physically move and punch, spectators can see the movements and action on a screen or through a VR headset. This creates a fun and exciting atmosphere that can be enjoyed by all.

Overall, The Thrill of the Fight is a popular and engaging VR experience that offers an immersive and realistic simulation of a boxing match.

WARPLANES: BATTLE OVER PACIFIC

Warplanes: Battles over Pacific is a virtual reality game that allows players to experience the thrill of air combat during World War II. Players can choose to fly as a pilot for the Allied or Axis powers and engage in dogfights over the Pacific Ocean.

The game features a range of aircraft, from agile fighters to heavy bombers, each with unique capabilities and weapons. Players can upgrade their planes, customize their loadouts, and develop their skills as they progress through the game.

One of the key features of Warplanes: Battles over Pacific is its attention to detail. The game's developers have carefully recreated the aircraft, landscapes, and sounds of the era, making for an immersive and authentic experience. The game also features multiplayer modes, allowing players to compete against each other in intense aerial battles.

Players of Warplanes: Battles over Pacific often describe the game as an adrenaline-pumping and thrilling experience. The game's realistic graphics and sound effects make players feel like they are actually flying a WWII-era plane, while the fast-paced action keeps them engaged and on the edge of their seats.

Warplanes: Battles over Pacific is a great option for anyone who loves flight simulators or is interested in World War II history. The game's intense gameplay and authentic attention to detail make it a standout virtual reality experience.

The image shows three women standing together in a rustic, wooden interior. They are all wearing white polo shirts with a logo on the left chest. The woman in the center has her arms around the shoulders of the two women on either side. The background features wooden walls, a hammock, and several white, woven pendant lights. A television on the left shows "No Signal". On the right, there is a white box labeled "THERMOREX ULTRA-VIOLET STERILIZER" and a vase of flowers on a wooden counter.

Our Trained Team Members

At Mixed Reality, we take pride in providing exceptional customer service to our valued clients. Our team consists of highly trained professionals who are not only friendly but also proficient in resolving any unforeseen issues that may arise during your virtual reality experience. Our top priority is ensuring that your guests enjoy VR to the fullest extent possible, and we are committed to delivering an immersive and enjoyable experience for everyone.

Whether it's troubleshooting technical glitches or providing guidance on how to use the equipment, our team is dedicated to providing personalized assistance and support to make your VR experience seamless and unforgettable.

COOKING SIMULATOR

Cooking Simulator VR is a virtual reality cooking game that puts players in the role of a chef running a busy restaurant kitchen. The game offers a variety of different kitchen tools and cooking equipment to use, allowing players to cook a wide range of dishes. Players can chop, slice, mix, fry, and bake ingredients to create appetizers, entrees, and desserts, and they must manage their time and resources efficiently to keep up with the demands of their hungry customers.

Cooking Simulator VR also offers a career mode where players can build and manage their own restaurant, hire staff, purchase ingredients, and expand their menu. The game has realistic physics and graphics that make cooking feel more immersive and engaging. Players can also customize their kitchen and avatar to match their personal style.

The game is a popular choice for virtual reality enthusiasts who enjoy simulation games and cooking. It offers a unique and entertaining way to learn cooking skills and experiment with different recipes in a risk-free environment. It's also a great game to play with friends and family, as it offers multiplayer modes and allows players to work together in the kitchen or compete to see who can cook the best dish.

JOB SIMULATOR

Job Simulator is a wildly popular virtual reality game that puts you in the driver's seat of various jobs, but with a comedic twist.

The game is set in a futuristic world where robots have taken over jobs that humans used to do, leaving the player to perform a series of hilarious tasks. From cooking food in a kitchen to repairing a car engine, players get to experience a range of comical interactions and physical humour with the help of virtual reality controllers.

What makes Job Simulator unique is its ability to fully immerse players into the game world, making them forget they're even in a virtual reality environment. It's an experience that's so enjoyable, players often lose track of time and end up spending hours in the game.

This game is a go-to choice for events and parties, as it's easy for new players to jump right in and start having fun. With its light-hearted approach and silly interactions, Job Simulator is guaranteed to leave players laughing and thoroughly entertained.

A photograph of an HTC Vive VR headset and its two controllers resting on a white surface. The headset is white with black accents and features the HTC logo on the top. The controllers are black with the Vive logo on the side. The background is a dimly lit desk with a keyboard and other peripherals.

HTC VIVE

VIRTUAL REALITY EXPERIENCES

PROJECT CARS 2

Project Cars is an exciting virtual reality racing game that we offer at Mix Reality PTY LTD. The game allows users to experience the thrill of high-speed racing in a stunningly realistic environment, creating a fun and engaging gameplay experience.

When people first experience Project Cars in virtual reality, they are often amazed by how realistic and immersive the gameplay feels. The stunning graphics and realistic sound effects make users feel like they are actually in the driver's seat of a high-performance racing car, hurtling down the track at breakneck speeds.

Project Cars is highly interactive, allowing users to use their hands and controllers to steer, accelerate, and brake in the virtual world. The game also provides a sense of competition and challenge, with users striving to beat their lap times and outdo their friends.

In addition to its engaging gameplay, Project Cars also has spectator value. Those around the user can watch and see their reactions as they race around the track, creating a fun and entertaining experience for all.

Project Cars is a thrilling and immersive virtual reality game that is sure to delight users of all ages and skill levels. With its combination of realism and competition, it provides users with a memorable and exciting experience that they won't soon forget. Its spectator value also makes it a great addition to any event, providing entertainment and engagement for all guests.

RACING RIG

WITH STEERING WHEEL AND PEDALS

The racing wheel and pedals provide users with a more realistic and engaging way to steer and control their virtual car, making the gameplay more immersive and exciting. The racing rig, on the other hand, provides a more realistic seating position and environment, giving users the sensation of actually sitting in a racing car as they play the game.

Overall, the racing wheel, pedals, and racing rig add an extra level of realism and interactivity to the Project Cars virtual reality experience. With these tools, users can fully immerse themselves in the game and feel like they are actually in the driver's seat of a high performance racing car.

HTC Vive VR Headset Rentals with Expert Support
